The Blair educational bill at the last session of Congress passed the Senate. It now sleeps in the House Committee on Labor. Senator Blair writes to a friend in this State that it will be called up soon, and he fears it will be beaten unless the friends of education rally to its support. The bill provides that the government shall expend \$79,000,000 for public education, the amount to be distributed among the various States on the basis of illiteracy. Two millions of this amount incorporated in the bill under the Logan amendment, is to be used in the construction of school houses; the rest in the payment of teachers. The special object of the bill is to provide educational facilities for the Southern States where the illiteracy is alarming. Twenty-four years ago four millions of slaves became the nation's wards, and now citizens of a free country, they knock at the door of our free schools. In the interest of Republican institutions they should be educated. By reason of the ravages of war and the extreme poverty of the South, the South cannot educate the blacks; if educated at all, it must be through aid from the nation's treasury.

For more than a year past there has been a systematic effort made in the interest of John Sherman for President. Governor Foraker is the leader of this movement. A few months ago, in his office at Columbus, the Governor said to the writer that he was confident that Ohio would send to the convention, a solid delegation for Sherman. We notice that Foraker as authority is being now quoted by the press throughout the country. It is excusable for Ohio to think well of this favorite son but the great West will never fall into line. The friend of Wall Street can never be the friend of the silver producing regions. The statesman who has filled his coffers through relations with the moneyed magnates of the East can never be the friend of the sons of toil of the West. When on this coast two years ago Sherman talked silver and anti-Chinese and other interests of ours but the people looked on him with distrust. The Pacific Coast is no admirer of Sherman nor is it likely ever to be his friend.

The last Legislature appropriated \$2,500 for the purpose of building a fire proof vault for the safe keeping of the records of the State Land Office and those of the Secretary of State. The Governor, Controller and Treasurer were appointed as a Board to see that the vault be built and were instructed to make a report of their action to this Legislature. The vault has not been built neither has any report been made by the Board. A resolution should be introduced into the Legislature asking for a report from this board.

The sentiment in Idaho is growing in favor of its annexation to Nevada. Several of the leading newspapers of that Territory which formally opposed it are now in its favor. There are being signed petitions to the Legislature urging that body to petition Congress to authorize the annexation. It is asserted by people recently from that Territory and by the press, that Idaho will do its part towards the annexation of all Southern Idaho to Nevada.

On account of the demoralization of the wires by the damp snow fall of last night, our afternoon dispatches are again short.

Sunk by the Ice.
HARTFORD, Conn., February 8. The schooner Samuel Daily of New London was cut through by the ice at Saybrook Point this afternoon and sank. Captain Spaulding, his wife and child and three seamen got into a yawl, but before it could be freed from the vessel, she went down. The Captain and one seaman were saved; the others lost. Mrs. Spaulding's body was found floating, being upheld by the clothing.

The Tariff Question Discussed in Congress.

THE CHINESE QUESTION

Lucky Numbers in the Louisiana Lottery.

[PRESS DISPATCHES TO THE GAZETTE]

A Divided Party.

WASHINGTON, February 9. Speaker Carlisle yesterday received a letter signed by John S. Henderson, Geo. D. Wise and Sam Randall, of which the following extracts convey significance:

Dear Sir—We regret exceedingly that you could not see your way clear to give recognition yesterday to some Democrat to enable him "to move to suspend the rules for the purpose of giving the House an opportunity to consider the question of a total repeal of the internal revenue tax on tobacco." Your refusal to give this recognition together with your letter of the 7th instant, deserve more than a passing notice. If two-thirds of the House are in favor of such repeal, it is a grave responsibility for you to oppose such a large majority of representatives of the people. Assuming, however, for the sake of argument, that the friends of the proposition constitute a less number than two-thirds, their strength is certainly such that they ought to have been permitted to test the sense of the House upon the question, especially since the country is watching with intense interest the action of the House in respect thereto, and the constituents of a large number of members of the House have been urging them to obtain, if possible, a consideration of this subject. We do not wish to be misunderstood; we earnestly desire from a party standpoint, that recognition should have been given to a Democrat to make a motion, but we could vote cheerfully for that proposition, whether made by a Democrat or Republican. We believe that the friends of a repeal of the tobacco tax were so strong in the House, that we would save to the oppressed tax-payers of this country, an annual reduction of taxation, to the extent of \$28,000,000. A motion made during the last six days of the session would almost certainly be too late to secure the favorable consideration for the question in the Senate. We think that a revision of the tariff and of the internal revenue laws can be attained from time to time, by reforming the obvious and greater grievances of the two systems and that we should not refuse to make such reforms because sweeping changes have not been practical. If the House was considered competent to deal with the Silver question, with the Pension question and the Oleomargarine question, free from the dictation of the Democrats in caucus, we think it ought to be competent to deal with the question of a reduction of taxation. A caucus ought not now to be invoked to justify the policy of the delay and non-action on this subject. We sincerely hope, with you, that some plan may yet be devised which will enable the House to consider the whole subject of revenue reduction and revision, in a spirit of fairness to all interests, and in accordance with the letter and spirit of the National Democratic party adopted at Chicago in 1884, and we assure you that we are ready to meet any of our Democratic associates who are prepared to treat with us on such a basis.

Congressional Proceedings.

WASHINGTON, February 9. The House Committee on Indian Affairs yesterday ordered a favorable report on the bill granting to the Arizona Narrow Gauge Railway Company the right of way through the White Mountain Indian Reservation.

The following bills have passed the Senate: To prohibit any officer, agent or servant of the government from hiring or contracting for the labor of prisoners; to amend the statutes in relation to the immediate transportation of dutiable goods; Ead's bill went over till Thursday; Senate bill for securing statistics of the extent and value of the vessels in the fisheries of the United States and the House bill relating to the importing of mackerel caught during the spawning season were taken up. During the discussion on the bill, Edmunds presented a report from the Commissioner of Fisheries, as to the complaints from the owners of vessels of ill treatment on the Canadian coast, showing 67 cases in addition to those reported to the State Department. Ordered printed. On motion of Hoar, an amendment was adopted, postponing the period when the bill is to take effect from March 1, 1887, to March 1, 1888. Without disposing of the bill, the Senate went into secret session and soon adjourned. Belmont of New York, dwelt upon the necessity of the United States Government granting indemnity for losses inflicted, and commended the action of the Chinese authorities since this occurrence. Morrow (of Cal.) inquired whether it was the purpose, in case this bill was passed, to call up the bill restricting Chinese immigration. Belmont replied in the negative. He

said the Chinese government did not desire to embarrass the relations between the two nations by a continuance of immigration, and there was a disposition to modify the treaty so as to bring about results very much more effective than could be secured by legislation. With this assurance the Committee did not intend to bring up the matter now. The respective merits of the Senate bill, (which provides for the ascertainment of the loss incurred,) and the House bill (which makes a direct appropriation of \$147,748) were briefly discussed. Morrow of California favored the Senate bill, and criticized Congress for not performing its duty to the country, by the passage of a bill restricting Chinese immigration. The House bill was substituted for the Senate bill by a vote of 101 to 68, and as so amended the bill was passed. The House then passed the Senate bill prohibiting the importation of opium into the United States by any subject of the Emperor of China. The House passed a bill to inquire into the effect of the International Convention of March 4, 1884, for the protection of submarine cables. McCrary of Kentucky, called up the bill authorizing the President of the United States to arrange a conference for the purpose of promoting arbitration and encouraging reciprocal, commercial relations between the United States of America and the Republic of Mexico, Central and South America, and the Empire of Brazil.

Beecher on Dr. McGlynn.

CHICAGO, February 8. The Tribune's New York special says: Rev. Henry Ward Beecher, referring to Dr. McGlynn, said to a correspondent: "Father McGlynn is a splendid man, a public-spirited man, and if he were a Protestant clergyman I would say, 'That's right, go right ahead!' But Father McGlynn is a Roman Catholic priest, and therefore there is nothing left for him to do but to pack up his things and go to Rome." Referring to Archbishop Corrigan's allusions to himself, Mr. Beecher said: "I don't care about discussing it and shall give no notice whatever to it."

Nevada Land Surveys.

WASHINGTON, February 8. In the Senate to-day, Van Wyck offered a resolution requesting the Committee on Appropriations to have read in the Senate any communication received from the Commissioner of the General Land Office showing the disposition of moneys heretofore appropriated for surveys of public lands, bearing on railroad lands and on lands in the State of Nevada, referred to in the Senate debate of last week. After some discussion the resolution went over until to-morrow.

Senator Jones Disclaims.

NEW YORK, February 8. A World's Washington special says: J. P. Jones of Nevada, says that all reports of his having made great sums in mining operations during the last year are untrue. His friends say that these stories are generally started out as advance advertisements of fraudulent mines.

Lucky Numbers.

NEW ORLEANS, La., February 9. In the drawing of the Louisiana Lottery, 73,987 drew the capital prize; 45,151, the second prize; 86,267, third prize; 99,469, fourth prize; 19,118, fifth prize; 63,828, sixth prize; 79,392, seventh prize; and 671, eighth prize.

FOREIGN DISPATCHES

The Papal Interests.

BRESLAU, February 8. It is stated that Monsignor Kopp, a Catholic Bishop of Faldia, who mediated in the negotiations for the revision of the May laws, has been deputed by the Pope to make a statement declaring the Pope's intentions of advising Catholic electors to support the government on the septennate bill, and explaining the Papal interests from a Catholic standpoint in having the Catholic electors assist in securing the success of Prince Bismarck's bill in the Reichstag. The occasion for making this important statement will be the introduction in the Upper House of the Prussian Diet of a new Ecclesiastical bill. It is also announced here that the Pope, desiring to meet Prussia's views, even in the matters of ecclesiastical discipline, and appointment, will favor the nomination of Dr. Kopp to the Bishopric of Breslau.

Demonstrative Strikers.

LONDON, February 8. The striking miners at Blantyre, Scotland, yesterday engaged in riotous demonstrations and hooted a number of shops. The local police were powerless, and troops had to be called out to quell the disturbance. A number of arrests were made. The miner's strike is spreading in Scotland.

An American Swindler.

LONDON, February 8. George Franklin Anderson, described as an American Judge hailing from Detroit, Michigan, was to-day committed for trial on a charge of having swindled Charles Deakin of Susquehanna, Pennsylvania, out of a large sum of money collected by the prisoner under the

pretense that it was necessary for expenses incurred in the work he pretended to be engaged in of securing for the plaintiff a valuable English estate to which he had been convinced he was heir. In the hearing to-day Deakin's son testified that Anderson's wife offered \$6,000 as a bribe to the plaintiff to withdraw the charge against him.

A Moderate Speech.

LONDON, February 9. The debate on the address for the first time since the opening of the session took definite and practical form this evening, the House having a definite issue in the Parnell amendments. Parnell, in his speech, was moderate and judicious in tone. He purposely avoided personal approval of the principle of the "plan of the campaign," in order not to offend a number of Gladstonian members who disapprove but are inclined to condone it as a desperate temporary remedy.

TELEGRAPHIC BREVITIES.

—Reports received at London from various directions, reassert that troops are being concentrated in Southern Russia.

—The Rea'ing R. R. managers and their employees at Philadelphia have arrived at a satisfactory understanding and there will be no strike.

An Opportunity to Secure a Home at Reno!

200 LOTS FOR SALE

The manager of the Lake estate, in order to enhance the value of the property of the estate, as well as assist in

Building Up the Town of Reno

Has determined to offer two hundred fine building lots for sale, some of which are situated in the central part of town, and are very desirable for business purposes. The proposed site for homes is immediately south of the Truckee river, and its elevation affords a magnificent view of the mountains in the distance, and the valley and town near at hand. A more perfect place for an elegant home could not be selected. The soil is good and an abundant supply of water will be sold with each lot. The health of the locality cannot be questioned, as its elevation assures a perfect system of sewerage. Gas mains will be laid through the streets free of cost, for the benefit of those desiring to use them. It is also intended by the owners to lay out a park on the south side of the Truckee river, covering 20 acres, in which the public may enjoy the pleasure of driving, fishing and boating.

The educational advantages of Reno are well known, and the business prospects of the town are assured beyond a doubt. Purchasers of these lots may feel confident that the best of terms will be offered, and they will be fairly dealt with. For further particulars, address

HONEY LAKE NEWS.

A Snow-Storm—Good Sleighing and Irregular Mails.

SUSANVILLE, February 6. Editor Gazette:—Winter has come at last in regular old-fashioned style, and now the jingle of sleigh bells are heard in our streets.

The present storm commenced last Thursday and continued through the night, and Friday morning broke with about seven inches "of the beautiful" on the ground; this was continued through the entire day, finding about 18 inches of pure snow when night came. Yesterday was quite warm and the snow settled fast, packing solid and forming a splendid bed for sleighing.

To-day there has been a slight fall with prospects of more. In Willow Creek Valley there is now over two feet of snow on the level. Everything in the shape of, or that can be called a sleigh, has been put to service and the beaux tuck their best girls nicely in with the warm robes.

AND GO FLYING.

Through the streets. Those who are not fortunate enough to possess or obtain a string of bells, substitute the cow bell, which, with its heavy bass tone, jars rather discordantly upon the ear as it mingles its sonorous sounds with the fine treble of the others. Just before this storm commenced a sufficient quantity of splendid ice was secured by the hotel and saloon keepers. If the present snow remains for any length of time on the ground, it is liable to make a heavy draught on the quantity of hay in the valley which I am told is not more than is needed for the stock in the valley. The weather for some time past has had the effect of creating some sickness in our midst of a bronchial nature, which, in some cases has been quite severe; but as yet there have been no deaths, and all are reported to be in a fair way of recovery. That there is

WILFUL CARELESSNESS.

Neglect or lack of proper help to distribute the mail from Reno to this place, is apparent to our citizens. For the last two months the newspaper mail to this town has come in irregular and "broken doses," when it comes at all, for there are often days no western papers arrive here, and often when they get here, they are so old they are of no interest. Much of the time the San Francisco papers are four days old when they arrive here, and many of them seem to have traveled over the country so much and for so long a time, they look old, dirty and bald-headed when they get here. The GAZETTE scatters just as bad as the other papers—not putting in an appearance here for days at a time. As economy is said to be one of the leading objects of the present administration, perhaps it cannot afford to let Susanville have its required amount of mail matter, but be that as it may, one thing is certain, that the mail matter for this place was never as irregular as it has been for the past two months. RIX.

The Mineral Resource of the U. S.

The "Mineral Resources" of the United States for 1885, issued by the Department of the Interior under direction U. S. Geological survey, J. W. Powell Director, has reached this office. It is a book of 557 pages and well bound in the usual cloth binding employed by the Government bindery. The book contains many useful and interesting tables on the production and value of different minerals, asbestos, mineral paints and waters, and glass materials, etc. The article on cobalt by David T. Day, geologist in charge, is very interesting to Nevada as special mention is made of the mines in the Cottonwood District, giving a complete analysis of the ore. The table shows the ore to contain cobalt, 17.30 per cent.; nickel, 13.62; iron, 8.65; arsenic, 39.37; sulphur, 16.72; silica, 4.02; manganese, a trace. The production of cobalt ores and oxide during 1885 in the United States was 390,023 lbs., valued at \$65,373; of this Nevada produced 201,600 lbs., valued at \$31,500. This production in Nevada is shown to have had considerable influence toward a depreciation of the market. Altogether the book is a most valuable acquisition to statistics.

The book can be obtained by sending 40 cents [postal note not stamps] to the Director U. S. Geological Survey, Washington D. C.

The Latest and Greatest Discovery.

Dr. J. De Prati's Hamburg Flgs—A crystallized fruit cathartic. A discovery of the greatest interest to the medical profession. A boon to every household. A most delicious laxative or purgative, prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious that adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land. For liver complaints, habitual constipation, indigestion, dyspepsia and piles they are a specific. To all travelers by sea and land they will be found invaluable. They are positively unailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the flgs as eagerly as candy. For sale by every Druggist throughout the world. Price 25 cents a box. J. J. Mack & Co., Props, 9 and 11 Front Street, San Francisco, California.

Terrible Pains.

Dr. Flint's Heart Remedy banishes sick headache, and will prevent the return of this most terrible of pains, if taken with the warning symptoms give notice of the recurrence of an attack. At druggists \$1.25. Descriptive treatise with each bottle; or address J. J. Mack & Co., S. F.

Prisoners en Route.

Sheriff Sweeney of Eureka came as far as Reno last evening with three prisoners. Their names are Albert Johnson, George Wilson and a girl that goes by the name of Jessie. They are under arrest for killing two old people in Arizona by the name of Mr. and Mrs. Clevenger, in Buckskin Mountains, Arizona. The prisoners have been turned over to Sheriff Mulverton of Arizona, who is now on his way with them to Prescott, where they will be tried for the murder.

What True Merit Will Do.

The unprecedented sale of "Boschee's German Syrup" within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctors' bill and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles. nov29yl

Their Business Booming.

Probably no one thing has caused such a general revival of trade at S. J. Hodgkinson & Co. drug store as their giving away to their customers of so many small trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it cures colds, and croup, coughs, asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free large bottle \$1. Every bottle warranted.

If a well be poisoned, woe be to those who drink thereof. It is worse to poison the fountain of life for one's self, and for posterity. Often, by carelessness, or misfortune, or inheritance, this has been done. Ayer's Sarsaparilla frees the blood, the vital stream, and restores appetite, strength and health.

A CHILD'S SKIN,

Ears and Scalp Covered with Eczematous Scabs and Sores Cured by Cuticura.

MY LITTLE SON, AGED EIGHT years, has been afflicted with Eczema of the scalp, and at times a great portion of the body, ever since he was two years old. It began in his ears, and extended to his scalp, which became covered with scabs and sores, and from which a sticky fluid poured out, causing intense itching and distress, and leaving his hair matted and lifeless. Underneath these scabs the skin was raw like a piece of beefsteak. Gradually the hair came out and was destroyed, until but a small patch was left at the back of the head. My friends in Peabody know how my little boy has suffered. At night he would scratch his head until his pillow was covered with blood. I used to tie his hands behind him, and in many ways tried to prevent his scratching; but it was no use, he would scratch. I took him to the hospital and to the best physicians in Peabody without success. About this time some friends, who had been cured by the CUTICURA REMEDY, prevailed upon me to try them. I began to use them on the 15th of January last. In seven months every particle of the disease was removed. Not a spot or scab remained on his scalp to tell the story of his suffering. His hair has returned and is thick and strong, and his scalp as sweet and clean as any child's in the world. I cannot say enough to express my gratitude for this wonderful cure by the CUTICURA REMEDY, and wish all similarly afflicted to know that my statement is true, and without exaggeration. CHAS. MCKAY, Oct. 6, 1886. Peabody, Mass.

I have seen Mr. McKay's boy when badly afflicted with the eczema. He was a pitiful sight to look at. I know that he has tried our best physicians, and did all a father could do to for a suffering child, but availed nothing. I know that the statements he has made you at regard to the curing of his boy by your CUTICURA REMEDIES are true in every particular. WILLIAM J. MCCARTHY, 23 Foster Street, Peabody, Mass.

ROBUST HEALTH

It is not always enjoyed by those who seem to possess it. The taint of corrupted blood may be secretly undermining the constitution. In time the pulse will certainly show its effects, and with all the more virulence the longer it has been allowed to permeate the system. Each pimple, sty, boil, skin disorder and sense of unnatural lassitude, or languor, is one of Nature's warnings of the consequences of neglect.

Ayer's Sarsaparilla

Is the only remedy that can be relied upon, in all cases, to eradicate the taint of hereditary disease and the special corruptions of the blood. It is the only alternative that is sufficiently powerful to thoroughly cleanse the system of Scrofulous and Mercurial impurities and the pollution of Contagious Diseases. It also neutralizes the poisons left by Diphtheria and Scarlet Fever, and enables rapid recuperation from the debilitation and debility caused by these diseases.

Myriads of Cures

Achieved by AYER'S SARSAPARILLA, in the past forty years, are attested, and that no blood disease, at all possible of cure, that will not yield to it. Whatever the source of this disease, and wherever found, from the scurvy of the Arctic circle to the "veldt-sores" of South Africa, this remedy has afforded health to the sufferers by whom it was employed. Druggists everywhere can cite numerous cases, with their personal knowledge, of remarkable cures wrought by it, where all other treatment had been unavailing. People will do well to

Trust Nothing Else

than AYER'S SARSAPARILLA. Numerous crude mixtures are offered to the public as "blood purifiers," which only allure the patient with the pretense of many cheap doses, and with which it is folly to experiment while disease is steadily becoming more deeply-seated and difficult of cure. Some of these mixtures do much lasting harm. Bear in mind that the only medicine that can radically purify the vitiated blood is

FOR YOUNG PEOPLE IS WHAT THE papers call St. Nicholas. Do you know about it—how good it is, how clean and pure and helpful? If father or mother or boy or girl in your house will you not try a number, or try it for a year and see if it isn't just the element you need in the household? The "London Times" has said: "We have nothing like it on this side." Here are some leading features of

ST. NICHOLAS

FOR 1886-87.

Stories by Louisa M. Alcott and Frank R. Stockton—several by each author. A Short Serial Story by Mrs. Burnett, whose charming "Little Lord Fauntleroy" has been a great feature in the past year of St. Nicholas.

War Stories for Boys and Girls. General Bledsoe, a chief of staff, biographer and confidential friend of General Grant, and one of the ablest and most popular of the civil war. They will be panoramic descriptions of single contests or short campaigns, presenting a sort of literary picture gallery of the grand and heroic contest in which the parents of many a boy and girl of to-day took part.

The Serial Stories include "Juan and Juanita," an admirably written story of Mexican life, by Frances Courtenay Baylor, author of "On Both Sides;" also, a "Jenny's Boarding House," by James Oles, a story of life in a great city.

Short Articles, instructive and entertaining, will abound. Among these are: "How a great Panorama is Made," by Theodore E. Davis, with profuse illustrations; "Winning a Commission (Naval Academy)," and "Recollections of the Naval Academy;" "Boring for Oil;" and "Among the Gas Wells," with a number of striking pictures. "Child Sketches from George Eliot," by Julia Magruder; "Victor Hugo's Tales to his Grandchildren," recounted by Beatrix Matthews; "Historic Girls," by E. S. Brooks. Also interesting contributions from Nora Perry, Harriet Prescott Spofford, Joaquin Miller, H. H. Boyesen, Washington Gladden, Alice Wellington J. T. Trobridge, Lieutenant Fredrick Schwatka, Noah Brooks, Grace Denio Litchfield, Rose Hawthorne Lathrop, Mrs. S. M. R. Platt, Mary Mapes Dodge, and many others, etc., etc.

Summons.

IN THE DISTRICT COURT OF THE Seventh Judicial District of the State of Nevada, in and for the county of Washoe.

The State of Nevada sends to Robert Heene greeting: You are required to appear in an action commenced against you as defendant, by the Central Pacific Railroad Company, as plaintiff, in the District Court of the Seventh Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment against you, Robt. Heene, defendant, for the sum of four hundred and fifty and 50/100 (\$450.50) dollars for fourth, fifth, sixth and seventh years interest on the remainder of purchase money, and for the remainder of purchase money arising out of a certain contract with said company, plaintiff, to purchase the E & S of the SE 1/4 of sec. 15, T. 19, N. R. 19, E. M. D. and M. Washoe county, Nevada, containing 80 acres, said contract entered into Sept. 18, 1880; that you be required to pay said sum within 30 days from rendition of judgment, and in case of failure to pay within said 30 days that the said contract be declared null and void, and that you, defendant, and all persons holding under said contract be forever barred and foreclosed of all right to conveyance thereunder, and that the plaintiff be let into the possession of said premises and for costs herein, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court of Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I, T. V. Seal, Judge, have hereunto set my hand and affixed the seal of said Court, this 9th day of November, A. D. 1886. T. V. JULIEN, Clerk of the District Court of the Seventh Judicial District, Nevada, in and for Washoe County.
